

Teacher Training Erasmus+

Technology Tools for Educators

“Anyone who stops learning is old, whether at 20 or 80. Anyone who keeps learning stays young” (Henry Ford)

This course is designed to give teachers and educators an inside look and instructions surrounding the latest education technologies and innovations. This course's aims will be to explore the best practices of using technology in the classroom, and discuss ways to increase student achievement by utilizing different freely available applications. We will be creating a digital notebook to enhance our productivity and classroom organisation. Give tips on designing better assignments and friendly worksheets students. Dive into various social networks which can help classroom management and collaboration between students and teachers, learn how to create quickly a classroom website, help manage classroom assignments, grading and much more.

Cultural experience!

Join us in a multicultural and diverse experience in another European city. Courses will be offered in English, with a rich cultural program following the daily classes. Upon request official visits to schools can be organized.

Expert advice and guidance!

Our objective has always been to offer to learners of different ages and background the skills and knowledge, as well as the professional qualification that will enhance their personal development and promote their future careers. Our teaching staff is made of qualified, experienced, dedicated and enthusiastic teachers whose main objective is implement a high quality training course, which will lead the learner to success.

Possibilities for Funding!

Schools and other organisations can apply for staff mobility funding to support the professional development of teachers, school leaders and other school education staff. Funding is offered through the Erasmus+ program of the European Union under the KA1(Key Action 1) Learning Mobility of Staff.

Contact us for support

Individual guidance and support for the application process can be provided. For the preparation of the School Development Plan. Useful information and step-by-step guidance can be found on our website. You can also contact us by email or telephone for any inquiries you may have.
